

## How to find the congress venue

### Public transport:

Main train station

„Bahnhof SBB Basel», then either:

- Bus No 30 to «Kinderspital UKBB»
- Alternatively, Tram No 11 to «Johanniterbrücke»

### By car:

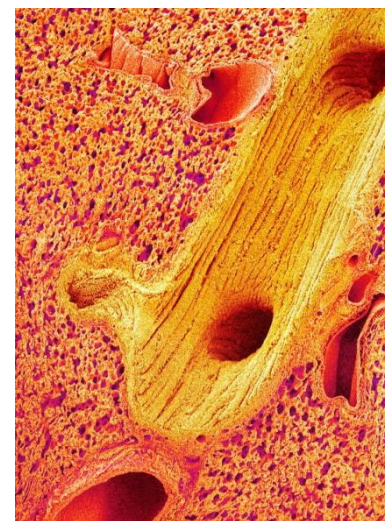

A2/ A3 – either:

- Exit Basel City/Bahnhof SBB and follow Universitätsspital to Parkhaus City
- Exit Basel-St. Johann, Elsässerstrasse/St. Johanns-Vorstadt, to Universitätsspital/ Kinderspital to Parkhaus City

## ANNUAL MEETING 2016

## Developmental aspects of neonatal lung disease

Tuesday, January 12, 2016

UNIVERSITY CHILDREN'S HOSPITAL **BASEL** (UKBB)

Spitalstrasse 33, 4056 Basel

## Developmental aspects of neonatal lung disease

We are very pleased to announce that **Prof. Bela Suki** (Professor of Biomedical Engineering at Boston University, USA) has accepted our invitation to speak at our meeting. Prof. Suki is an internationally renowned expert in lung physiology, and his research interests include developing advanced concepts of mechanical ventilation and the ensemble behavior of complex biological systems. We look forward to hearing Prof. Suki speak about recent neonatal research on variable ventilation in an animal model of respiratory distress. In a second talk, we will hear his view on the major transitions in life from a network perspective.

The first hour of the scientific program will be devoted to six short presentations. This part of the meeting is ideally suited for (but not limited to) research projects of young Swiss paediatricians and neonatal fellows. A poster session will be accessible throughout the day, and an organized poster walk will occur during lunchtime.

**Please be sure to submit your abstract prior to October 15<sup>th</sup>, 2015 and indicate your preferred mode of presentation.**

Riccardo E. Pfister  
President SSN

Sven M. Schulzke  
President of the OC

### Scientific committee

R.E. Pfister, M. Roth-Kleiner,  
S.M. Schulzke, T.M. Berger,  
R. Arlettaz, M. Mönkhoff,  
M. Nelle

### Organizing committee

S.M. Schulzke  
M. Roth-Kleiner  
R.E. Pfister  
T. M. Berger

## Program

09.00 - 09.30	Welcome coffee – Exhibition & Poster area (Foyer Aula UKBB)
09.30 - 10.30	<b>Short Reports</b>
10.30 - 11.00	<b>Variable ventilation – benefits in preclinical studies – B. Suki</b>
11.00 – 11.30	Coffee break - Exhibition & Poster area (Foyer Aula UKBB)
11.30 – 11.50	<b>Insights in lung structure during mechanical ventilation M. Roth-Kleiner</b>
11.50 – 12.15	<b>Fred Bamatter Award – R. Pfister</b>
12.15 – 13.30	<b>Business Meeting of the SSN – R. Pfister</b>
13.30 - 14.30	<b>Lunch Break &amp; Poster walk – Exhibition &amp; Poster area (Foyer Aula UKBB)</b>
14.30 – 15.00	<b>Pharmacological prophylaxis of bronchopulmonary dysplasia D. Bassler</b>
15.00 – 15.30	<b>Respiratory long-term outcomes after bronchopulmonary dysplasia - P. Latzin</b>
15.30 – 16.00	Coffee break - Exhibition & Poster area (Foyer Aula UKBB)
16.00 – 16.30	<b>The major transitions in life from a network perspective B. Suki</b>
16.30 – 16.45	<b>Case of the Year Award – T. Berger Awards for the best short report and the best poster R. Pfister</b>
16.45	<b>Closing comments from the host – S. Schulzke</b>
