

**Dear SGRM members, dear Swiss reproductive physicians and embryologists,**

Attending the large international congresses to broaden our clinical and scientific horizon and to meet each other in the evening is probably a thing of the past for many of us. Therefore, to keep you clinically and scientifically updated and to support the social life of our wonderful SGRM family, SGRM decided to set up the new Post-ESHAM conference series.

Six Swiss reproductive physicians and embryologists and one moderator will focus on exciting new and established reproductive medicine and embryology topics which have been presented at ESHRE and ASRM.

In addition, the Swiss evening, which took place for many years at ESHRE will be revived.

The SGRM welcomes you to the 1<sup>st</sup> Post-ESHAM meeting in the middle of Switzerland, in *Bärn*.

Michael von Wolff

President of SGRM
