

4th London PATHOLOGY update

WEBINAR

JUNE 8th, 15th and 22nd, 2022

3:00 PM (UK time)

SCIENTIFIC DIRECTOR
Roger Feakins

Consultant Histopathologist

For 2022, a group of high quality European and US pathologists will again provide a comprehensive gastrointestinal (GI) pathology update in the form of three webinars. All of the speakers are experts in the field and have considerable experience delivering lectures.

The emphasis is on diagnostic GI pathology, referring to research findings where relevant. The programme covers neoplastic and non-neoplastic topics and is suitable for GI pathologists and for anyone who reports GI pathology.

All lectures are live, and questions from delegates will be welcome.

Please join us for an entertaining and informative conference.

**EACH WEBINAR IS APPROVED FOR
2 CPD CREDITS BY THE ROYAL
COLLEGE OF PATHOLOGISTS, UK**
