WELCOME

Dear SGRM members, dear Swiss reproductive physicians and embryologists,

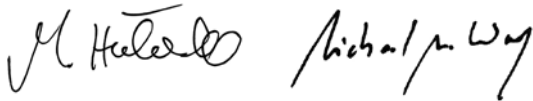

Ninetyfour Swiss attendants at the second SWISS POST-ESHAM meeting in 2022 with an overall score of 5.6 (6 = maximum) is a real statement. SWISS POST-ESHAM has become an established meeting for Swiss IVF centers and any other people interested in Swiss reproductive medicine and embryology.

Based on the evaluation the meeting will again take place in Bern in the same meeting hall as in 2022. As in 2022, six Swiss reproductive physicians and embryologists and one moderator will focus on exciting new and established reproductive medicine and embryology topics which have been presented at ESHRE and ASRM 2023.

And based on the feedback at our last meeting, the Swiss evening will again take place in the wonderful Italian restaurant "Verdi".

The SGRM welcomes you to the 3rd Post-ESHAM meeting in the middle of Switzerland, in Bärn.

In the name of the SGRM:
Dr. Michael Häberle and Prof. Michael von Wolff
