Sven Schulzke, M. Stocker

## Welcome to Aarau

Dear colleagues and friends,

We are delighted to welcome you all to the 2023 Annual Meeting of the Swiss Society of Neonatology in Aarau. This year's edition is created around topics that were selected by our members, based on a survey conducted to strengthen the impact of all members on proceedings and meetings of The Society.

As you can see from the program, the main sessions are all related to real-world, practical questions in education of future neonatologists and management of cardiovascular problems frequently occurring in clinical care. These topics are not only relevant to neonatologists, paediatricians, nursing staff and allied health care specialists working in the intensive care setting, but also to many colleagues from intermediate and special care units.

We do hope you will enjoy the meeting and we would like to encourage you to contribute to the lively discussions and networking opportunities at the congress. We would also be very happy if you would leave us some feedback and help us with suggestions and topics for upcoming meetings, in order to provide The Society with the best possible meeting, addressing areas of current interest that are relevant to its members.

*For the organizing committee 2023*

PD Dr. Martin Stocker, Lucerne

Dr. David Glauser, Zurich

*For the Swiss Society of Neonatology*

Prof. Sven Schulzke  
President

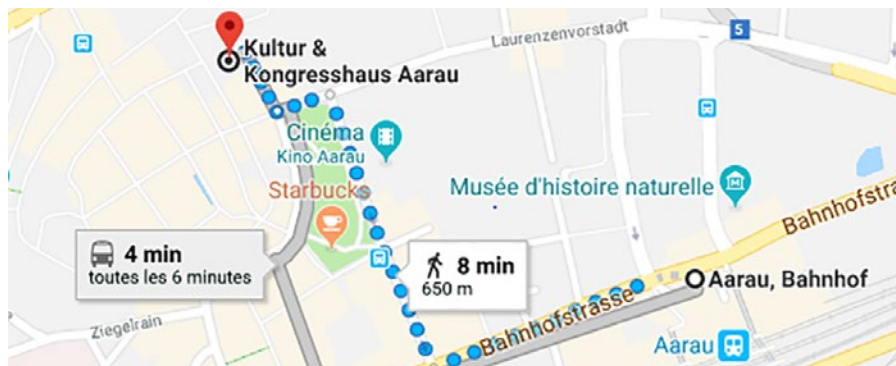

KD Dr. Philipp Meyer  
President-elect
