

Programme

As you might know, the SABCS (San Antonio Breast Cancer Symposium), held every December, is the world's largest gathering dedicated to breast cancer. Every year, international teams come together to discuss the latest advances in clinical, translational and fundamental research. The results presented at SABCS often have a direct impact on daily clinical practice.

Members of the Breast Centers who attended the December 2026 conference will share the most relevant and recent data at this multidisciplinary and interprofessional symposium. This information will then be discussed with all attending professionals, allowing for more in-depth analysis and contextualization.

We expect between 60 and 80 doctors and professionals to attend. The final program will of course not be available until December 2026, given the date of the Congress.

14.00 – 14.30 Accueil & enregistrement

14.30 – 14.40 Introduction et contexte

14.40 – 15.40 Session 1

Modération

14.40 – 15.00 Speaker 1

15.00 – 15.10 Discussion & questions

15.10 – 15.30 Speaker 2

15.30 – 15.40 Discussion & questions

15.40 – 16.10 Pause-café

16.10 – 17.40 Session 2

Modération

16.10 – 16.30 Speaker 3

16.30 – 16.40 Discussion & questions

16.40 – 17.00 Speaker 4

17.00 – 17.10 Discussion & questions

17.10 – 17.30 Speaker 5

17.30 – 17.40 Discussion & questions

17.40 – 17.55 Conclusions - synthèse

18.00 – 19.00 Apéritif
